## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1,2, and 5-8 allowed.

The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 6/14/04 are persuasive. The examiner found arguments to be persuasive, specifically page 6, paragraph 2 where applicant defines a dispersing layer as positioned between the outer proximal surface of a hygiene product and the core as shown in applicant's Figure 1; and page 8, paragraph 3, where applicant argues the nominal amount of citric acid in the Lucas reference would not be capable of shifting the pH as claimed. In light of the applicant's arguments, the overall claimed combination of the method of controlling odor and an odor controlling composition and having the claimed materials in a disposable hygiene product, where the product is capable of controlling odor by shifting the pH as claimed is neither anticipated nor rendered obvious by the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
